We are happy to hear that you have bohmy's coat extension cocoon, and we would like to thank you for placing your trust in us.

Below, you will find a series of steps that you can follow to fit the product. They are just a suggestion as you may find that you feel more comfortable fitting it in another way.

There is also an informative document attached regarding the safety instructions you should be aware of relating to the presence of magnets in the extension.

Fitting the cocoon

1. Put your baby in their sling or baby carrier as usual

2. Put your coat or jacket on

3. Clip one of the upper fasteners (right or left, as you prefer) at the desired height. Your baby should have at least the bottom of their neck covered

4. Remove your coat or jacket and lay it out flat

5. On the same side as the clipped fastener, insert the coat or jacket between the two strips using the 3 magnets

6. Clip on the lower fastener

7. Put your coat or jacket on

8. Fit the other side: the clip at the top, 3 magnets and clip at the bottom, making sure that you close your coat or jacket tightly

9. Adjust the hood using the string and stopper to better protect your baby

For subsequent fittings, since you already know the height at which the extension is to be attached, you can follow these steps while missing out steps 4 and 7 :).

We hope you have some happy moments with our product, and please don't hesitate to contact us if you need anything!
